

REMARKS

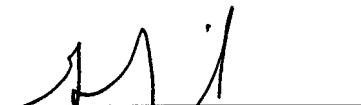

In the application, claims 1-14 have been canceled in favor of new claims 15-27 which claims have been presented to more clearly define what is regarded as the invention. Support for claims 15-27 is found in the specification, claims, and figures as originally filed - for example on pages 7-10 and 43-46 and within Figs. 1 and 7. As such, no new matter has been added.

The new claims have been submitted in response to a telephonic interview conducted with the Examiner on July 17, 2007 during which various elements of the subject invention were discussed. Believing that the claims now include one or more of the discussed elements, which elements are believed to render the claims allowable over the art of record, it is respectfully submitted that the application is now in a condition for allowance. Such action on the part of the Examiner is respectfully requested.

Respectfully Submitted;

Date: July 23, 2007
